PRY ARROUTATED BY Paris, Jan. 12.—The Panama developments form almost the sole topic of discussion everywhere, and the next move looked for on she part of the authorities is said to concern M. de Freycinet.

It is recalled that the ex-Minister of War was an intimate friend of Cornelius Herz, and frequently drove to Herz's place at Tresserve, near Aix, to enjoy the hospitality of Dr. and Mrs. Herz.

How far this close personal intimacy may have gone is, so far as the public knows, a natter of conjecture, but the friendship of M. de Preycinet is believed to have been put to industrious use by Herz in his peculiar opera-

De Freycipet is represented to have been terribly shocked by the statements from America regarding the antecedents of Herz, whom he professed to consider a person of Sudden End of Garland Terrell, a high probity and excellent character.

Attention is called to the fact that M. Charles de Lesseps, in saying that the knife and been put to his throat to make him give up millions of Panama money, simply repeated an expression which he had used in

M. Monchicourt, the liquidator of the Panama Company, deposed before the Panama Committee that in 1888, when the Lottery bill was coming on, Baron Rei-nach required a sum of 2.000,000, plus 2,900,000 francs for what he spoke of as press expenses. There were no accounts furnished by the Baron. M. Monchleourt expressing stonishment at such a sum being intended for the papers. M. Reinach said to him :

"What a simple person you must be to fancy it is going to be spent on them." M Monchicourt was then connected with Panama affairs. On speaking of the money

that Baron Reinach was swallowing up to one of the directors, the latter told him that It was payment for secret services he had undertaken for the purpose of getting the lottery loan carried. Baron Reinach was paid in cash down. It

The courtroom was througed again to-day at the resumption of the trial of the l'anama defendants. M. Rossignol, accountant for the Panama Company, was examined as a witness, President Perivier remarking that the accounts must have been recast before being submitted to expert examination.

M. Monchicourt, liquidator for the Panami Company, deposed that Ferdinand de Lesseps had disregarded all warnings and insisted on proceeding with the Panama enterprise re-gardless of cost. The expenses, M. donchi-court stated, were excessive throughout.
